

ARFF and Rescue

Features and benefits

Feature	Benefit
Repeatable incidents	Run the same scenario until every crew member positions correctly.
Zero consequence	Mistakes with aircraft, vehicles and terrain are logged, not paid for.
Any conditions	Train the winter night response in the middle of summer.
Your station, your routes	Bay doors, access roads and response routes from your own airfield.
Full cab option	Tier 3 stations fit a cab mock-up with the real controls.
Radio ready	Add the AI radio communication program for emergency phraseology.

From the digital twin

What comes with every program

- **1:1 digital twin.** Your airfield, signage, lighting and buildings, reproduced from real-world data.
- **Microsoft Flight Simulator 2024 engine.** World, weather and physics maintained by Microsoft and Asobo.

- **Modular and scalable.** Add programs, vehicles and stations as you go, from desk station to full cabin.
- **Turn-key delivery.** Hardware, software, installation, instructor training and one year of support.
