

Features and benefits

Feature	Benefit
Low frequency, high consequence	Train the task that costs the most when it goes wrong.
No aircraft required	Dockings happen at the station, not during a turnaround.
Measured	Every approach is scored against the same criteria.
Your gates	Bridge type and console layout configured per terminal.
Console mock-up	Tier 3 stations fit a replica console.
Pilot program	Start at one gate and expand.

What comes with every program

- **1:1 digital twin.** Your airfield, signage, lighting and buildings, reproduced from real-world data.
- **Microsoft Flight Simulator 2024 engine.** World, weather and physics maintained by Microsoft and Asobo.

- **Modular and scalable.** Add programs, vehicles and stations as you go, from desk station to full cabin.
- **Turn-key delivery.** Hardware, software, installation, instructor training and one year of support.
