

Features and benefits

Feature	Benefit
Off-season training	Full procedure practice before the first deicing event.
No aircraft required	Approach and application on a parked aircraft on the digital twin.
Clearance measured	Distance to wing, tail and engines tracked on every approach.
Sequence scored	Application order, coverage and timing checked the same way every time.
Full cab option	Tier 3 stations fit boom and basket controls.
Radio ready	Add the AI radio program for flight deck and pad calls.

What comes with every program

- **1:1 digital twin.** Your airfield, signage, lighting and buildings, reproduced from real-world data.
- **Microsoft Flight Simulator 2024 engine.** World, weather and physics maintained by Microsoft and Asobo.

- **Modular and scalable.** Add programs, vehicles and stations as you go, from desk station to full cabin.
- **Turn-key delivery.** Hardware, software, installation, instructor training and one year of support.
