

Features and benefits

Feature	Benefit
Off-season training	Recurrent training in any month, not during the first event.
No equipment tied up	Winter units stay ready for service.
Consistent standards	Every operator runs the same clearing pattern the same way.
Specialist controls	Blade, broom and blower modeled per unit.
Full cab option	Tier 3 stations fit the levers and consoles of your equipment.
Radio ready	Coordinate with a virtual controller during clearing operations.

Winter units at the apron with the control tower

Clearing the apron in low visibility

What comes with every program

- **1:1 digital twin.** Your airfield, signage, lighting and buildings, reproduced from real-world data.
- **Microsoft Flight Simulator 2024 engine.** World, weather and physics maintained by Microsoft and Asobo.

- **Modular and scalable.** Add programs, vehicles and stations as you go, from desk station to full cabin.
- **Turn-key delivery.** Hardware, software, installation, instructor training and one year of support.
